Iredell County Inspection Department Plans Review Section

Commercial Plan Review is mandatory. Residential plan review is not mandatory, however we reserve the right to review residential plans as needed.

In an effort to eliminate confusion and maximize time utilization, the Plans Review Section has prepared this document about the plans review process for commercial projects. The following is a list of things that must be done prior to the issuance of a building permit.

I) Per the North Carolina Sedimentation Pollution Control Act any construction that will disturb more than an acre of land (or half an acre in a watershed) requires a soil erosion and sedimentation control plan. The Erosion Control Division in the Planning & Development Department must approve these plans. This office can be reached by phone at (704) 878-5362. Please note, in all cases sediment control is required.

II) Zoning approval must be obtained from the proper zoning authority. The following is the list of zoning authorities in Iredell County:

Iredell County Planning Department
349 North Center St.
P.O. Box 788
Statesville, NC 28687
Phone: (704) 878-3118.

IV) Please submit one set of plans to the Iredell County Health Department: Food and Lodging Personnel for the following establishments:

Summer Camps.
Hospitals, Nursing and Rest Homes, etc.
Residential Care Facilities
Public Swimming Pools and Bath Houses
Restaurants and other Food Handling Establishments
Meat Markets
Child Day Care Facilities.
Contact: Charles Lindler, Iredell County Health Department, 318 Turnersburg Hwy, Statesville, N. C. 28625, Phone (704) 878-5305.

Also, Hospitals, Schools, Nursing and Rest Homes are subject to licensure, plans review and inspection by the North Carolina Department of Human Resources – Division of Facility Services, 701 Barbour Drive, P. O. Box 29530, Raleigh, N. C. 27626-0530, Phone (919) 733-2420, Fax (919) 733-6592.

V) Day Care Facilities are subject to licensure and inspections by the North Carolina Department of Health and Human Services – Division of Child Development, P. O. Box 29533, Raleigh, N. C. 27626-0553, Phone (919) 662-4527, Fax (919) 622-4568.

VI) The North Carolina Department of Insurance: Engineering Division must review and approve plans for buildings in the following categories¹: (new construction & additions)

High Rise	All Buildings
Covered Mall Buildings	All Buildings
Group E-Educational	Over 2 stories or over 20,000 sq. ft. per story
Group I-Institutional	Over 3 stories or over 10,000 sq. ft. per story
Group A-Assembly	Occupant load over 1,000
Group H-Hazardous	Occupant load over 100
State buildings	All Buildings 10,000 sq. ft. or greater
City or County buildings	All Buildings 10,000 sq. ft. or greater
Residential	Over 4 stories or over 100 units per building

Note: These plans should be submitted to the North Carolina Department of Insurance – Engineering Division, P. O. Box 26387, Raleigh, N. C. 27611, Phone (919) 661-5880

VII) Commercial projects are subject to review and inspections by the appropriate Fire Marshal’s Office. A set of plans must be delivered to the appropriate office. A list of these offices follows:

Iredell County Fire Marshal
349 North Center St.
P. O. 788
Statesville, N. C. 28687
Phone (704) 878-3035

Statesville Fire Marshal
227 South Center St.
Statesville, N. C. 28677
Phone (704) 878-3425

VIII) The Iredell County Department of Inspections – Plans Review Section, per the North Carolina State Building Code Vol. I-A section 302, requires three (3) copies of drawings and specifications for all commercial projects. Please submit one (1) set of these plans to the appropriate Fire Marshal’s office. These must be scale drawings with sufficient clarity and detail to indicate the nature and character of the proposed work, including site, architectural, plumbing,

¹ These categories were taken from the North Carolina State Building Code Vol. 1-A Table 602.

mechanical, electrical and sprinkler plans. Please note additional data may be required, per section 302.2 of vol. I-A of the North Carolina State Building Code. Also, a design professional's seal and signature are generally required, for all drawings, for all commercial projects. This requirement is subject to the exceptions listed in section 302.4 subparagraphs 1 –7 of Vol. I-A of the North Carolina State Building Code. The plans should be delivered to a code clerk at the permit window. Additionally, the Plans Review Section requests, when possible, a copy of the drawing on computer disks (3.5" or CD-ROM) for review and an as built drawing for archival purposes. Please note that this office understands the need for fast track building projects, however the department's storage space is very limited, therefore the department asks that a full set of plans be submitted (when they become available) so that we can eliminate the storage of multiple sets of incomplete plans. Plans will be disposed of six (6) months after receipt if permits have not been obtained.

Also, note that failure to secure proper approvals and to follow these guidelines will result in delays in the review process and in the processing of permit applications.

INFORMATION SHEET

ONLINE PERMITTING

Online Permitting is available at our websites; www.mspection.com/counties/iredell or www.co.iredell.nc.us . To utilize this service to obtain a building permit a zoning permit has to have been issued and a master number assigned. In addition the applicant will have to have an account which allows us to charge the cost of the building permit to their account. For blanket sub-trade permits on which a blanket building permit has been issued the application is available to anyone who has a valid PIN number. This new functionality will enable us to process the permit applications faster and will allow you to obtain your permits in a timelier manner. We will be able to process applications submitted in this manner much quicker and more efficiently than those submitted by fax or mail. You will be notified by email of the receipt of your application and also when it is approved or denied.

Don't forget that your Certificates of Occupancy are available online or through the IVR, along with scheduling, canceling, results and other information. Your PIN number is your online password.

INSPECTION REQUEST

A request for an inspection prior to our cut off time of 11:00 pm. may be scheduled for the following workday. Our workweek is Monday-Friday 8:00 am – 5:00 p.m. except holidays. Requests made after the cut off time, or holidays may be scheduled for the second workday. We do not schedule appointments for inspections. To prevent wasted trips and subsequent Re-inspection charges please follow the following guidelines:

1. Do not request an inspection unless all required work is complete.
2. Do not request an inspection unless all required prior approvals are complete.

We normally perform all requested inspections within three workdays unless there is a problem with the request. If our personnel have not completed your requested inspection within two working days please contact our office @ 704-928-2007 to determine why the inspection has not been made.

If you have an emergency or extenuating circumstances please contact our office.

PLEASE REMEMBER

- By State Law permits are void if work is not started within six months of the issuance of a permit, or if work is discontinued for a period of twelve months or more after work commences.
- Wasted trips due to work not being ready, buildings locked, etc. are subject to a Re-inspection fee.

- It is the contractor's responsibility to request the required inspections at the proper times and to make sure that they are approved before proceeding to the next phase of the project.
- Work concealed without the proper approvals from our department will be exposed to the extent necessary for the proper inspections to be made, at the contractor's expense.
- Job cards must be displayed conspicuously on the job site. Inspections *will not* be performed if the job cards are not properly posted. The job cards are the only way our personnel can be sure they are at the right location.
 - Footings, which meet the requirements of Vol. VII of the NC State Building Codes, are required for underpinning on mobile homes when the wall exceeds 40". These footings must be inspected prior to pouring.
 - Post your street address numbers before requesting the final building/CO inspection. The address numbers must be present for a CO to be issued.
 - Masonry underpinning and foundation footings are required on all multi-section Manufactured (mobile) Homes. These footings must be inspected prior to pouring. In addition the piers must be laid with mortar or be covered with a structural bonding product such as sure wall.
 - Residential piers require plans sealed by an Engineer registered in NC.
